

# Yoann Piétri

POST-DOCTORAL RESEARCHER

QuantumFuture group - Università degli Studi di Padova, Padova

+33 6 51 00 27 21 | Yoann.Pietri@unipd.it | nanoy.fr | nanoy42

## Research activities

### RESEARCH INTERESTS

Continuous-Variable Quantum Key Distribution, Photonic Integrated Circuits for quantum applications, quantum communication infrastructures and networks, quantum cryptography beyond Quantum Key Distribution, overall integration of quantum communication systems, energetics of quantum information, practical security of Quantum Key Distribution.

### RESEARCH PROJECTS

**Open source software for CV-QKD (2021-2024):** programming of a python software for experimental CV-QKD, including hardware control, advanced signal processing techniques, parameter estimation, secret key rate computation and classical communication. The software is highly modular, hardware-agnostic and has extensive documentation. It has been benchmarked with emulated distances, fiber spool and deployed fiber at metropolitan distances. This was done in the context of the QSNP project and led to the scientific publication [4]. It is now used for investigation of side-channel attacks and free space communications.

**Integrated devices for CV-QKD (2021-2024):** characterization and usage of a Si integrated receiver performing heterodyne dual-quadrature detection for CV-QKD. Benchmarked with emulated metropolitan distances. Led to the publication of [3]. Characterization of an InP-based phase-diverse dual quadrature receiver. Involved in the project of an InP-based transmitter (see [2]). This was done in the context of the QNSP project. Participated in the design of new integrated devices that are now expected in the QNSP project.

**Quantum Communication Infrastructure (2021-2024):** installation and characterization of fibers in the Paris region linking 8 nodes (total distance of around 200 km). Benchmark of the infrastructure with commercial QKD systems and implementation of a trusted node experiment with added security. This was part of the ParisRegionQCI and FranceQCI projects. Led to the publication [6].

**Energetic Analysis of Quantum Communication Protocols (2024):** introduction of two new metrics for estimating the energetic cost of quantum communication protocols (in particular QKD). Application to the case of DV-QKD protocols (BB84, E91, MDI) and CV-QKD (GMCS and DMCS), and extension to CKA protocols leading to the first analysis of this kind. Led to the publication [7].

## Experiences and Education

### Post-Doctoral Contract

UNIVERSITÀ DEGLI STUDI DI PADOVA

- Development of novel Quantum Key Distribution protocols

Padova, Italy

2025–Current

### PhD in Physics

SORBONNE UNIVERSITÉ

- System Integration of High-Performance Continuous-Variable Quantum Key Distribution,
- Supervised by Amine Rhouni and Eleni Diamanti,
- Defended on 09/12/2024 in front of the following Jury:
  - Tobias Gehring, Associate Professor at DTU,
  - Christoph Marquardt, Professor at FAU,
  - Ségolène Olivier, Researcher at CEA,
  - Valentina Parigi, Professor at Sorbonne Université,
  - Amine Rhouni, Research Engineer at CNRS,
  - Eleni Diamanti, Research Director at CNRS.

Paris, France

2021–2024

### MsC in Physics

IMPERIAL COLLEGE LONDON

- Title: Quantum Fields and Fundamental Forces,
- Master thesis (title: Quantum Cryptography) supervised by Jonathan Halliwell,
- Master awarded with Distinction on 01/12/2020.

London, United Kingdom

2019–2020

### THESIS AND MONOGRAPHS

- [8] **Yoann Piétri**. “System Integration of High-Performance Continuous-Variable Quantum Key Distribution”. PhD Thesis.
- [9] **Yoann Piétri**. **Sept. 2020**. “Quantum Cryptography”. Master Thesis. Imperial College London.

## Scientific Conferences

### INVITED TALKS

#### Workshop Synchronisation de précision et réseaux

QOSST: AN OPEN SOURCE SOFTWARE FOR CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION

Villetaneuse, France

October 2024

### CONTRIBUTED TALKS

#### International Conference on Quantum Energy (ICQE)

ENERGETIC ANALYSIS OF EMERGING QUANTUM COMMUNICATION PROTOCOLS

Presented by Raja Yehia

Padova, Italy

June 2025

#### Second Quantum Energy Initiative Workshop

ENERGETIC ANALYSIS OF EMERGING QUANTUM COMMUNICATION PROTOCOLS

Presented by Raja Yehia

Grenoble, France

January 2025

#### Quantum Optical 2.0 Conference and Exhibition

QOSST: A HIGHLY MODULAR OPEN SOURCE PLATFORM FOR CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION APPLICATIONS

Rotterdam, Netherlands

June 2024

## 1st Colloquium GDR TeQ “Quantum Technologies”

DEVELOPMENT OF INDUSTRIAL CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION SYSTEMS

*Presented by Manon Huguenot*

*Montpellier, France*

*November 2023*

## 23rd International Conference on Transparent Optical Networks (ICTON)

HIGH-SPEED CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION WITH ADVANCED DIGITAL SIGNAL PROCESSING

*Presented by Matteo Schiavon*

*Bucharest, Romania*

*July 2023*

## Optical Fiber Communication Conference (OFC)

CV-QKD RECEIVER PLATFORM BASED ON A SILICON PHOTONIC INTEGRATED CIRCUIT

*San Diego, USA*

*Mars 2023*

## Optical Fiber Communication Conference (OFC)

INP-BASED CV-QKD PIC TRANSMITTER

*Presented by Jennifer Aldama*

*San Diego, USA*

*Mars 2023*

## International Conference on Integrated Quantum Photonics (ICIQP)

A VERSATILE PIC-BASED CV-QKD RECEIVER

*Lyngby, Denmark*

*October 2022*

## POSTER PRESENTATIONS

### 2nd Colloquium GDR TeQ Quantum Technologies

QOSST : A HIGHLY MODULAR OPEN SOURCE SOFTWARE FOR CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION

*Paris, France*

*November 2024*

### 14th International Conference on Quantum Cryptography (QCRYPT)

POST-QUANTUM CRYPTOGRAPHICALLY-SECURED TRUSTED NODE FOR QUANTUM KEY DISTRIBUTION IN A DEPLOYED NETWORK

*Vigo, Spain*

*September 2024*

### 6th Seefeld Workshop on Quantum Information, Seefeld, Austria (2024)

POST-QUANTUM CRYPTOGRAPHICALLY-SECURED TRUSTED NODE FOR QUANTUM KEY DISTRIBUTION IN A DEPLOYED NETWORK

*Seefeld, Austria*

*June 2024*

*Presented by Verena Yacoub*

### 1st Colloquium GDR TeQ “Quantum Technologies”

EXPERIMENTAL DEMONSTRATION OF CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION WITH A PHOTONIC INTEGRATED RECEIVER AND MODULAR SOFTWARE

*Montpellier, France*

*November 2023*

### 13th Colloquium on Quantum Engineering, Fundamental Aspects to Applications

CV-QKD RECEIVER PLATFORM BASED ON A SILICON PHOTONIC CHIP

*Palaiseau, France*

*November 2022*

### 12th International Conference on Quantum Cryptography (QCRYPT)

PARISREGIONQCI: A PARISIAN QUANTUM NETWORK

*Taiwan, Taiwan*

*August 2022*

### 12th International Conference on Quantum Cryptography (QCRYPT)

A VERSATILE PIC-BASED CV-QKD RECEIVER

*Taiwan, Taiwan*

*August 2022*

### International Conference on Quantum Communication, Measurement and Computing (QCMC)

A VERSATILE CV-QKD SYSTEM WITH A PIC-BASED RECEIVER

*Lisbon, Portugal*

*July 2022*

### 12th Colloquium on Quantum Engineering, Fundamental Aspects to Applications

A VERSATILE AND HIGH-PERFORMANCE PIC-BASED CV-QKD RECEIVER

*Lyon, France*

*November 2021*

## Seminars

### Cryptography in a Quantum World - Paris Rally

EXPERIMENTAL QUANTUM CRYPTOGRAPHY AT LIP6

*Paris, France*

*May 2024*

### Qontinuous Variable Days

EXPERIMENTAL VERIFICATION OF BOSON SAMPLING

*Paris, France*

*May 2024*

### QURIOSITY Seminar at Telecom Paris

EXPERIMENTAL CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION IN LIP6: OPEN SOURCE SOFTWARE, INTEGRATED PHOTONICS AND DEPLOYED NETWORKS

*Palaiseau, France*

*Mars 2024*

### Quantum Future group Seminar at UniPadova

HIGH SPEED QUANTUM KEY DISTRIBUTION WITH CONTINUOUS VARIABLE: SYSTEM, INTEGRATED DEVICES AND QUANTUM NETWORK IN PARIS

*Padova, Italy*

*May 2023*

## Supervision

### INTERNSHIPS

2025	<b>Simone Conton</b> , Master Thesis, <i>Implementation of Practical Mode-Pairing Quantum Key Distribution Systems</i>	Co-supervised at 80%
2024	<b>Tom Guerinel</b> , M1 Internship, <i>Study of Hybrid Quantum Key Distribution Systems</i>	Co-supervised at 60%
2024	<b>Salomé Perrin</b> , M1 Internship, <i>Implementation of a BB84 pedagogical demonstrator</i>	Co-supervised at 80%
2024	<b>Thomas Liege</b> , Master Thesis, <i>Study and optimization of Quantum Key Distribution devices on an optical link simulating atmospheric disturbances.</i>	Co-supervised at 30%
2024	<b>Sarah Layani</b> , M1 Internship, <i>Experimental Quantum Key Distribution: Techniques and Applications</i>	Co-supervised at 80%
2023	<b>Nessim Dridi</b> , M1 Internship, <i>Real Time Calibration for Continuous-Variable Quantum Key Distribution</i>	Co-supervised at 20%
2022	<b>George Crisan</b> , M2 Internship, <i>Post Processing of Continuous-Variable Quantum Key Distribution</i>	Co-supervised at 80%

## RESEARCH PROJECTS

2024	<b>Émilie Gillet</b> , M1 Research Project, <i>Optimization of Digital Signal Processing algorithms for Continuous-Variable Quantum Key Distribution</i>
------	----------------------------------------------------------------------------------------------------------------------------------------------------------

## Reviewing activities

**Referee for the following journals/conferences:** Nature Communications, Quantum, Optica, Journal of Lightwave Technology (JTL), Physical Review Applied, Photonics Research, New Journal of Physics (NJP), Quantum Information Processing Conference (QIP), Optics Communications, Quantum Science and Technology (QST), Optics Express, Optics Letters, IEEE Photonics.

## Teaching

Teaching summary: 226h total (6h lectures, 220h tutorials). L1 and M2, including Mathematics, programming (C, Python) and Quantum Cryptography at Sorbonne Université.

<b>Lecture (4h), Tutorial (14h)</b> MU5INQ02, QUANTUM CRYPTOGRAPHY, M2	Sorbonne Université, France 2024
<b>Tutorial (38.5h)</b> LU1IN002, ÉLÉMENTS DE PROGRAMMATION 2, L1	Sorbonne Université, France 2024
<b>Lecture (2h), Tutorial (16h)</b> MU5INQ02, QUANTUM CRYPTOGRAPHY, M2	Sorbonne Université, France 2023
<b>Tutorial (38.5h)</b> LU1IN002, ÉLÉMENTS DE PROGRAMMATION 2, L1	Sorbonne Université, France 2023
<b>Tutorial (36h)</b> P1.LU1MA011, MATHÉMATIQUES POUR LES ÉTUDES SCIENTIFIQUES, L1	Sorbonne Université, France 2022
<b>Tutorial (38.5h)</b> LU1IN001, ÉLÉMENTS DE PROGRAMMATION 1, L1	Sorbonne Université, France 2022
<b>Tutorial (38.5h)</b> LU1IN002, ÉLÉMENTS DE PROGRAMMATION 2, L1	Sorbonne Université, France 2022

## Outreach

2024	<b>Fête de la Science</b> , French national Science fair	Sorbonne Université
2023	<b>Fête de la Science</b> , French national Science fair	Sorbonne Université
2022	<b>Fête de la Science</b> , French national Science fair	Sorbonne Université
2022	<b>Creation of an animated vulgarization video</b> , On the subject of entanglement	QICS
2022	<b>Quantum vulgarization talk</b> , at FedereRez, national Federation of student network organisations	Lille, France
2021	<b>Fête de la Science</b> , French national Science fair	Sorbonne Université
2021	<b>Quantum vulgarization talk</b> , at FedereRez, national Federation of student network organisations	Saclay, France

## Open Source work

### QEnergy

SOFTWARE TO ESTIMATE THE ENERGETIC CONSUMPTION OF QUANTUM COMMUNICATION PROTOCOLS

2024

<https://github.com/RajaYehia/QEnergy>

## QOSST: Quantum Open Source Software for Secure Transmissions

OPEN SOURCE SOFTWARE FOR EXPERIMENTAL CONTINUOUS-VARIABLE QUANTUM KEY DISTRIBUTION

2024

<https://github.com/qosst/>

### etsi-qkd-014-client

PYTHON CLIENT OF THE ETSI QKD 014 CLIENT

2022

<https://github.com/nanoy42/etsi-qkd-014-client>

## Responsibilities

---

2021-2024 **Participation to the organization of the QI team group yearly workshop**

2021-2022 **Organizer of group seminars in the QI Team of LIP6**

2021-2022 **Website manager the QI Team of LIP6**, Including creation of the website, <https://qi.lip6.fr>

## Languages

---

**Spoken languages:** French (native), English (fluent), Spanish (elementary), Italian (beginner), German (beginner).

**Programming languages:** Python (advanced), C (intermediate), Julia (beginner).
